

### Specification

| Item                       | Parameter         |
|----------------------------|-------------------|
| Model                      | NBF400-130-50     |
| Material                   | Rubber            |
| Color                      | Black             |
| Pcs/Set                    | 2                 |
| Dimensions: A×B×C (mm)     | 400mm×130mm×50mm  |
| Dimensions: A×B×C (inch)   | 15-3/4"×5-1/8"×2" |
| Max Loading Capacity (lbs) | 660lbs (300kg)    |
| Spirit Level               | Included          |
| Accessory (set)            | 1                 |
| Fixed Hole Position        | Included          |

### Dimension

### Features

- Primarily constructed of rubber, rubber mounts efficiently guard against rust and corrosion.
- Hardness screws are sturdy and durable, with strong load-bearing capacity.
- Sliding aluminum groove design easy to adjust the fixing screw position. With a level gauge convenient position adjustment.
- Effectively reduce the noise and vibration generated during the operation of the external unit, the service life of the external unit can be prolonged.
